

# **Is Feedly picking up the feed? Test post.**

As has happened multiple times already, Feedly has stopped picking up the feed to this blog. My last post, which I wrote on Thursday, March 20, has yet to appear. I am testing to see if this post will be picked up. It is a disaster when you depend on the RSS to work for your readers to be able to see your stuff. Feedly is failing me.

I apologize for any inconvenience if you are getting this through email.
